Balloons Bursting in Air and More Fun with Chemistry

Mean Green Chemistry Demo Team Presents for National Chemistry Week

October 20, 2013 at 2:30-4:00 PM
University of North Texas
CHEM 106

[Park in the "D lot!" on Hickory at Ave C, but not in a "numbered" space!]

Are you ready for some demos of the magic of chemistry?

The Mean Green Chemistry Demo team presents fun and exciting chemical demonstrations guaranteed to knock your socks off! Attend this exciting and engaging presentation of how matter produces energy that can be seen, felt, smelled, and heard. Be amazed by Color is a Many Splendid Thing, Fire in the Jug, the Mason Dot Burn, Mean Green Foam Machine, Fire and Ice, Exploding Balloons, and more!
